

# PERRY LIGHT

## INSTALLATION INSTRUCTIONS

- 1 Wear Gloves! This will protect the finish on your light, so that it will patina evenly over time.
- 2 Use the included screws to mount the flanges on the brackets to your wall.
- 3 Attach the fixture to the bracket using the clutch swivel that is packed separately.
- 4 Adjust the fixture to your desired angle and tighten the clutch swivel to keep your fixture in place. Always loosen the clutch swivel before moving the fixture.
- 5 An LED lightbulb is included, but if you would like to use another type of bulb, we recommend 60W or less.
